PROFILE

I'm an inquisitive Junior Web & App Developer with a diploma from RED Academy hoping to make a difference in the technology industry. I am constantly researching the latest trends in the digital industry and spend my free time on personal app development projects as well as indulging my love of gaming. I also have a 2:1 in Mathematics from the University of Hertfordshire.

WORK EXPERIENCE

Junior Web Developer | Buzz

Oct 2018 – Dec 2018

I was part of a team that designed a website called Buzz as part of the community project during RED Academy, the purpose of this website is to connect tattoo artists with studios, both the tattoo artists and studios are able to make profiles where they can connect with each other.

- I worked with UX & UI teams to ensure a smooth handover & to keep the designs accurate.
- I designed the layouts with CSS Grid & Flexbox for the front page, footer, artists, studios & single artist/studio pages.
- I used PHP to ensure that only 6 artists & studios appeared on the pages.

Travelling in southeast Asia |

Mar 2018 – Aug 2018

Associate Tender (Rebates) Analyst | Medtronic Limited

July 2016 - Feb 2018

I oversaw rebate payments for the Minimally Invasive Therapies Group in UK & Ireland.

- I integrated & aligned the rebate process from an acquired company, Covidien into Medtronic, working with various international & national teams.
- Managed the rebate process by ensuring that customer contract conditions were carried out & that the customers were paid.
- I maintained all the customer contracts where I worked with sales teams & finance teams to keep accurate accruals and ensuring the customer is signed up with approved legal contracts.
- I pulled usage and pricing reports daily which need to be provided to the teams across Medtronic and customers.
- I created and updated catalogues for customers to ensure that the customer has the correct products and pricing to order.

EDUCATION

Web & App Development Diploma | RED Academy

Oct 2018 – Mar 2019
